

Wage and Hour Division, Labor

§ 788.13

Lumber Co. v. Mitchell, 287 F. 2d 76, cert. den. 366 U.S. 963).

§ 788.8 “Cruising, surveying, or felling timber.”

Employees engaged in “cruising * * * timber” include all those members of a field crew whose purpose is to estimate and report on the volume of marketable timber. Employees engaged in “surveying * * * timber” include the customary members of a crew accomplishing that function such as the chairmen, the transit men, the rodmen, and the axmen who clear the ground of brush or trees in order that the transit men may obtain a clear sight. Similarly, the usual members of a crew which go to the woods for the purpose of felling timber and preparing and transporting logs are engaged in operations described in the exemption. Typically included, when members of such a crew, are fellers, limbers, skidders, buckers, loaders, swampers, scalers, and log truck drivers.

§ 788.9 “Preparing * * * logs.”

Preparing logs includes, where appropriate, removing the limbs and top, cutting them into lengths, removing the bark, and splitting or facing them when done at the felling site, but does not include such operations when done at a mill. Employees engaged in sawmill, tie mill, and other operations in connection with the processing of logs, such as the production of lumber, are not exempt.

§ 788.10 “Preparing * * * other forestry products.”

As used in the exemption, “other forestry products” mean plants of the forest and the natural properties or substances of such plants and trees. Included among these are decorative greens such as holly, ferns and Christmas trees, roots, stems, leaves, Spanish moss, wild fruit, and brush. Gathering and preparing such forestry products as well as transporting them to the mill, processing plant, railroad, or other transportation terminal are among the described operations. Preparing such forestry products does not include operations which change the natural physical or chemical condition of the products or which amount to extract-

ing as distinguished from gathering, such as shelling nuts, or mashing berries to obtain juices.

§ 788.11 “Transporting [such] products to the mill, processing plant, railroad, or other transportation terminal.”

The transportation or movement of logs or other forestry products to a “mill processing plant, railroad, or other transportation terminal” is among the described operations. Loading and unloading, when performed by employees employed in the named operations, are included as exempt operations. Loading logs or other forestry products onto railroad cars or other transportation facilities for further shipment if performed as part of the exempt transportation will be considered a step in the exempt transportation (*Woods Lumber Co. v. Tobin*, 199 F. 2d 455 (C.A.5)). However, any other loading, transportation, or other activities performed in connection with the logs or other forestry products after they have been unloaded at one of the described destinations is not exempt. “Other transportation terminal” refers to any place where there are established facilities or equipment for the shipment or transportation of logs or other forestry products. Motor carrier yards, docks, wharves, or similar facilities are examples of other transportation terminals, but the place where logs are picked up by contract motor carriers or haulers at the site of the woods operations for transportation to the mill, processing plant, or railroad is not such a terminal.

§ 788.12 Limitation of exemption to specific operations in which “number of employees * * * does not exceed eight.”

Regardless of his duties, no employee is exempt under section 13(a)(13) unless “the number of employees employed by his employer in such forestry or lumbering operations does not exceed eight.”

§ 788.13 Counting the eight employees.

The determination of the number of employees employed in the named operations is to be made on an occupational and a workweek basis. Thus the exemption will be available in one
